

April 2017

Construction Notice

Overnight Construction and Closures Scheduled on University Avenue at SR 15 April 30-May 4

Residents Can Expect Intermittent Lights, Noise, and Dust

Crews will perform drainage work and crosswalk construction along University Avenue at State Route 15 (SR 15) from Sunday, April 30, to Thursday, May 4, between 9 p.m. and 5 a.m. Nearby residents can expect intermittent lights, noise, and dust during construction.

During work hours, the southbound SR 15 University Avenue off-ramp and one westbound lane along University Avenue will be closed. During the day and at night, the sidewalk will be closed on the westbound side of University Avenue between 40th Street and the University Avenue bridge. Pedestrians will be detoured around the closures. The closures will affect San Diego Metropolitan Transit System (MTS) routes. Please visit sdmts.com for detour information.

Construction schedules are subject to change. Visit KeepSanDiegoMoving.com/Centerline for the latest construction information and closure updates. Crews will work to minimize impacts to nearby residents, businesses, and commuters. Your patience during construction is appreciated.

About the Project

The \$65 million project will build San Diego's first freeway-level *Rapid* transit stations along SR 15 at El Cajon Boulevard and University Avenue. New 2.5-mile transit-only lanes also will be constructed within the existing SR 15 median from just north of Interstate 805 to just south of Interstate 8. The SR 15 Mid-City Centerline *Rapid* Transit Stations Project is expected to be completed in summer 2017.
