Soil Testing Work Planned February through April for Future Rail Project

SANDAG will be conducting soil testing near the Batiquitos Lagoon within the railroad right-of-way in Encinitas and Carlsbad this week in advance of a future double track project. Activities will include drilling in more than a dozen locations. The work will be conducted mostly during the day, but some drilling will occur on nights or weekends. This work is not expected to have significant noise impacts to nearby residents. Thank you for your patience.

Work Schedule

- **February 11 - April 30**
  - Monday - Friday
  - 8 a.m. to 5 p.m.

- **February 21 - 25**
  - Friday - Monday
  - 12 a.m. to 6 a.m.

*Work schedules subject to change.

Parking Impacts

Some parking in the railroad right-of-way along Vulcan Avenue will be restricted during work hours. Signage will be posted in impacted areas.

About LOSSAN

SANDAG is working in collaboration with the North County Transit District (NCTD) to construct approximately $1 billion in improvements in the San Diego County section of the LOSSAN (Los Angeles-San Diego-San Luis Obispo) rail corridor over the next 20 years, including a primary effort to double track the corridor from Orange County to Downtown San Diego. To date, slightly more than half of the county’s rail corridor is double tracked, with an additional 11 miles in design or under construction. More than 97 percent of the corridor is expected to be double tracked by 2030. Other infrastructure improvements include bridge and track replacements, new platforms, pedestrian undercrossings, and other safety and operational enhancements. The rail enhancements are part of a package of transportation, environmental, and coastal access improvements within the North Coast Corridor.
