Completion of Interim Bike Path

Beginning in May of 2016, work commenced on an interim bike path north of State Route 52. The temporary bikeway has been completed, and will reroute people riding bikes from the existing Rose Canyon Bike Path to allow for crews to relocate existing utilities in the area and make way for the future construction of the Mid-Coast Trolley project.

Interim Bike Path

- The interim bike path is now operational.
- The interim bike path is located between Gilman Drive, north of the State Route 52 crossing of the railroad tracks, and the end of Santa Fe Street.
- Sight lines have been improved on the interim bike path.
- Access to the bike path is expected to be maintained at all times. The interim bike path will be shifted at various times during construction over the next several years.
- So that everyone may be safe, please exercise extra caution and courtesy when using the interim bike path.

Concurrent SDG&E Construction Activities

San Diego Gas & Electric Co. will be working in the same area concurrently to relocate a 16-inch gas line from June 2016 to November 2016.

Work Areas:

Construction schedules may change with very little notice.
