Genesee Avenue Utilities Relocation

Continuing since late 2015 and into early 2017, work along Genesee Avenue between La Jolla Village Drive and Regents Road will be ongoing to relocate utilities in advance of construction on the Mid-Coast Trolley project.

Major construction activities include:

- Potholing, trenching, and street excavations.
- Water and sewer pipeline installation along Genesee Avenue.
- Temporary water service interruptions may be necessary to complete this work; residents and businesses will be provided with advanced notice prior to service interruptions.
- Crews will minimize impacts to neighboring residents and businesses as much as possible.
- Temporary traffic controls will be in place.

Access to nearby businesses will be maintained at all times.

Schedule

Utility relocation construction activities began in late 2015 and are anticipated to be completed in Spring 2017. However work in your area may be completed prior to that date.

Work Hours

Due to the location and nature of the work, **some weekend work may be required.** Work hours are Monday through Thursday, from 7 p.m. to 5 a.m.

There may be times when 24-hour work is required. Prior notice to residents and businesses will be provided.

Copies of this notice have been provided to your property manager.

About the Project

The Mid-Coast Trolley project will extend Trolley service from Santa Fe Depot in Downtown San Diego to the University City community, serving major activity centers such as Old Town, the University of California, San Diego (UCSD), and Westfield UTC. Nine new stations will be constructed. Major construction work will begin in 2016, with service anticipated to begin in 2021.
