Build San Elijo Lagoon Highway Bridge

Build San Elijo Lagoon Highway Bridge

- Will accommodate the new carpool lanes along I-5 in each direction
- Lengthening the bridge will improve tidal flow and overall lagoon health
- Will include a new bike/pedestrian suspended bridge that will link the south and north sides of the lagoon and connect to a Class 1 bike path on Manchester Avenue
- Construction Timeline:

Begins Late 2016 Complete 2021
