

SR 76 East Segment Project Construction Advisory #33

Intermittent closures on SR 76 between SR 76/I-15 interchange and Oak Creek Road in the mornings of January 14 and 15

Between 4 a.m. and 7 a.m. on Thursday and Friday, there will be brief intermittent closures of State Route 76 (SR 76) approximately between the I-15 interchange off-ramp and Oak Creek Road. This segment will be closed twice during each of the mornings to allow delivery of pre-cast bridge girders to the project site. Each closure will last up to 10 minutes.

Crews are building a new bridge as part of the SR 76 East Segment project. The girders are 143 feet long and 45 tons each, and the length and size of the girders make it necessary to close SR 76 to accommodate the delivery.

California Highway Patrol will monitor the closures and regulate traffic. Please plan your travel for possible delays.

The scheduled closures are subject to delay or cancellation due to weather condition.
