

Appendix K: Reference Graphics from the Draft EIR/EIS and Supplemental Draft EIR/EIS

REFERENCE GRAPHICS

This appendix contains Draft EIR/EIS and Supplemental EIR/EIS reference graphics that are not included in the Final EIR/EIS, and are provided for the convenience of the reader. Updated 10+4 Buffer alternative graphics, including deletion of the Cannon and Oceanside Direct Access Ramps, can be compared with the current 8+4 Buffer alternative (Preferred Alternative) graphics provided in this Final EIR/EIS, Please note that following public circulation of the Draft EIR/EIS in 2010, phasing graphics (Figures 2-2.14a through 2-2.14ao of the Draft EIR/EIS) also were updated with editorial and design changes. In addition, the Mancheser DAR simulation from Draft EIR/EIS Section 3.7 is provided below for comparison with the current design depicted in Final EIR/EIS Figure 3-7.50. From the Supplemental Draft EIR/EIS Figures Appendix B-1 through B-3 showing preliminary detail for community enhancement park and ride facilities.
