- Imperial County
- California Department of Transportation
- Metropolitan Transit System
- North County Transit District
- United States Department of Defense
- San Diego Unified Port District
- San Diego County Water Authority
- Southern California Tribal Chairmen's Association
- Mexico

In late December 2016, construction will begin on Segments 4B and 5 of the Bayshore Bikeway. This 2.25-mile segment of the Bayshore Bikeway spans from Vesta Street to Marina Way and West 32nd Street in National City. [Please refer to this map](#) for more details on the project location (Vesta Street to National City Marina).

During construction, intermittent lane closures and local road impacts may occur along the alignment. Construction crews will take all reasonable steps to minimize impacts to the neighboring community and will ensure access is maintained for people riding bikes, walking, and driving in the area.

Bike lanes will be added to Tidelands Avenue as we continue to collaborate with the Port District regarding future plans in the area. As shown on the [project map](#), the bike lanes on Tidelands Avenue will connect to the completed Bayshore Bikeway segment near Marina Way.

The Bayshore Bikeway is a priority project in the San Diego Regional Bike Plan Early Action Program, which will create an interconnected network of bikeways throughout the region. Approximately 15 miles of the planned 24-mile loop around the San Diego Bay have been built to date. Construction of this 2.25-mile segment is anticipated to be completed in summer 2017.

If you have any questions or concerns, please contact me at [omar.atayee@sandag.org](mailto:omar.atayee@sandag.org) or (619) 699-5319.
