

MID-COAST TROLLEY

MID-COAST TROLLEY CONSTRUCTION UPDATE

WINTER 2017

ROSE CREEK BIKEWAY PROJECT

Rose Creek Bikeway Construction to Start this Winter

Preliminary construction of the Rose Creek Bikeway is scheduled to begin in January 2018. The initial work will include clearing and removing vegetation in the construction area adjacent to the creek between Santa Fe Street and I-5, south of the Santa Fe Street bridge over Rose Creek. Major construction of the Rose Creek Bikeway, including construction of the trail, under-crossings and a bridge, is scheduled for June 2018 but may begin in early spring 2018. Project completion is anticipated in spring 2020.

Please see current and upcoming construction areas on the back of this flier, which will be updated as new construction areas are added.

Schedules are subject to change due to unexpected delays. We appreciate your patience while we complete this regional transportation project.

About the Project

The Rose Creek Bikeway is part of the Coastal Rail Trail and is a Class I bike path (completely separated from vehicle traffic). It connects existing sections of the Rose Canyon and Rose Creek bike paths in the City of San Diego.

The bikeway will begin at the north end of Santa Fe Street and connect to the existing bike path at Damon Street and Mission Bay Drive.
