

SANDAG Awards \$39 Million Construction Contract for Transit Work

By [Steve Adamek](#) Sunday, June 28, 2015

Watsonville-based Granite Construction Inc. announced that it has been awarded a \$39 million contract by the San Diego Association of Governments (SANDAG) to construct new bus rapid transit stations along state Route 15 at El Cajon Boulevard and University Avenue in San Diego County.

According to Granite, the scope of the Mid-City Centerline project consists of the addition of three miles of new dedicated transit lanes, four new bus rapid transit station platforms, plaza bridge entrances and ramp intersection improvements. This project supports an integrated rapid transit network that provides high frequency services seven days a week to riders.

Funding for the project is provided by the Federal Transit Administration and TransNet, the regional half-cent sales tax for transportation administered by SANDAG. Construction is underway and will take approximately two years to complete.
