

# Construction in your Neighborhood

## Construction of Retaining/Sound Wall to Begin

To support the construction of the East Palomar Street Direct Access Ramp (DAR), Transit Station and Park & Ride, crews will begin building a retaining wall with a sound wall on top along the east side of Interstate 805 (I-805) between East Oxford Street and East Naples Street this week. Sound walls are designed to help reduce freeway noise and enhance the quality of life for neighboring communities. During construction, you can expect brush and tree removal, noise, dust, and heavy equipment along the freeway. We appreciate

your patience during construction. We will continue to keep you informed as work progresses.

### About the Project

The East Palomar Street DAR, Transit Station and Park & Ride is part of the first phase of the I-805 South Express Lanes Project, a \$1.4 billion effort to create a modern new transportation backbone for South County. The project is scheduled to be completed in 2014.
