

# SR 76 East Segment Project Construction Advisory #29

## Traffic switch to occur the week of November 2

During the week of November 2, construction crews will switch the traffic flow on SR 76 in the Bonsall area between South Mission Road and Via Monserate. In this area, the traffic will move from the existing lanes on the north side of the roadway to the newly constructed lanes on the south side of the roadway. This traffic switch will allow crews to construct and pave the north side of the highway. Caltrans will keep one westbound and one eastbound lane open between South Mission Road and Via Monserate during the traffic switch. The traffic switch schedule is subject to change due to weather conditions.

Motorists are urged to slow down, use caution in the construction area, and budget extra time for their commute as they become accustomed to this new facility.
