Coastal Rail Corridor

San Diego Segment

Building Today. Boarding Tomorrow.

BLUFF STABILIZATION TO BEGIN IN DEL MAR

Starting late April 2020, SANDAG will begin the fourth phase of stabilization efforts along the 1.7 miles of coastal bluffs within the City of Del Mar, specifically between 15th Street and Carmel Valley Road.

Phase 4 efforts will install additional support columns to stabilize localized areas and sea walls, construct a drainage channel on top of the bluffs, repair concrete channels and storm drain outfalls, and stabilize existing headwalls. Construction is anticipated to be complete by late 2020.

Construction Work Area

Work will occur in various locations along the LOSSAN rail tracks on the upper and lower bluffs and the beach, between 15th Street and Carmel Valley Road. Please refer to the map for work area descriptions.

Update on Construction Activities during COVID-19 Pandemic

Public works construction activities have been deemed essential. SANDAG is continuing to work to keep construction projects moving during the pandemic. Protecting the health and safety of the San Diego region, including our partners, contractors, and stakeholders, is a top priority for SANDAG. Be assured that construction workers are following precautionary health measures, and we continue to monitor developments and follow all health guidance and orders. For additional information, visit www.sandag.org/COVID.

What You Can Expect During Construction

- Construction will take place along sections of the upper and lower bluffs and the beach
- Construction will occur Monday through Friday, 7 a.m. to 7 p.m.
- Residents may notice the presence of work crews, heavy construction equipment, noise, and Occupational Safety and Health Administration (OSHA) required vehicle back-up alarms
- Rail service will be maintained for the duration of the project
- Public beach access will be maintained throughout construction; however, please be mindful of local restrictions on beach access due to the COVID-19 pandemic. Visit www.DelMar.ca.us for more information

Crews will minimize impacts to the maximum extent possible. Please note, construction schedules are subject to change.
