

### Rail Service and Construction Notice

#### Night & Weekend Rail Work Planned for October

During the weekends of October 8-9, October 15-16, and October 22-23, rail service will be temporarily suspended between Oceanside and San Diego along the Los Angeles-San Diego-San Luis Obispo (LOSSAN) coastal rail corridor due to planned Absolute Work Windows (AWWs). AWWs are select weekends that allow for crews to meet significant construction milestones and work unimpeded while all rail services are halted. No freight or passenger rail services will be available between early Saturday morning and early Monday morning. Regular passenger rail service will resume in time for the morning commute on Mondays.

You can stay informed about the latest updates from the LOSSAN rail corridor by visiting [GoNCTD.com](http://GoNCTD.com), [Amtrak.com](http://Amtrak.com), and [MetrolinkTrains.com](http://MetrolinkTrains.com).

### AWW Construction Work Schedule

**Dates:** Saturday, October 8 – Monday, October 10  
Saturday, October 15 – Monday, October 17  
Saturday, October 22 – Monday, October 24

**Hours:** 24 hours a day beginning Saturday morning at 12:30 a.m. to Monday morning at 3 a.m.

**Work schedules are subject to change.**

### Work Continues on Four Rail Improvement Projects

Crews are making great progress on the [Oceanside Transit Center Platform Improvement Project](#) and will be completing the demolition of the southern end of Platform 1, the existing easternmost platform at the station. Anticipated AWW work also includes the installation of a new crossover just south of the station between Eucalyptus Street and Oceanside Boulevard, and other track work in the project area.

Crews will be completing the demolition of Platform 1 this weekend.

Construction will also be underway on the [Los Peñasquitos Lagoon Bridges Replacement Project](#). Crews will be working primarily on the three southernmost bridges installing support beam foundations and constructing the ends, or bent caps, of the new bridges.

Work will continue on the CP Rose Track Crossovers Project, an element of the [Elvira to Morena Double Track Project](#). Planned AWW construction activities include replacement of rail ties, and installing culvert crossings and new railroad signal systems. Additionally, crews will be working on the [San Diego River Double Track Project](#), between Tecolote and Friars Road, installing new culvert crossings to improve drainage systems.

Nearby residents and businesses can expect day and nighttime noise and lights during the AWW weekends. SANDAG and North County Transit District (NCTD) will work to minimize noise and other impacts to nearby residents and businesses during construction. Thank you for your patience.

#### About the LOSSAN Program

SANDAG is working in collaboration with NCTD to construct approximately \$1 billion in improvements in the San Diego segment of the LOSSAN coastal rail corridor over the next 20 years, including a primary effort to double track 99 percent of the corridor from Orange County to Downtown San Diego. Other infrastructure improvements along the LOSSAN corridor include bridge and track replacements, new platforms, pedestrian crossings, and other safety and operational enhancements. Many of the rail improvement projects are part of a package of transportation, environmental, and coastal access enhancements within the [North Coast Corridor Program](#).

### TRAIN HORN RULES

Federal regulations require train conductors to sound the horn when approaching an active construction site, even in a quiet zone. Train horns serve as a warning system to ensure the safety of railroad workers. More information and rules governing the use of train horns can be found on the Federal Railroad Administration's website at [www.fra.dot.gov](http://www.fra.dot.gov).
