

# Oceanside Transit Center Platform Improvement Project

## Station Construction to Begin June 2016

*Join Us at a Construction Info Session*

**Saturday, May 21 - 10:30 a.m. to 2 p.m.**

**Tuesday, May 24 - 5:30 a.m. to 9 a.m.**

**Wednesday, May 25 - 4:30 p.m. to 7:30 p.m.**

*The project team will be located near the pedestrian undercrossing at the station.*

Attendees will be able to learn more about the rail project, what to expect during construction, and sign up to receive project updates. We look forward to visiting with you.

San Diego Segment

Building Today. Boarding Tomorrow.

## Project Map

## About the Project

Construction is scheduled to begin in June on a major expansion of the Oceanside Transit Center. The project will improve the efficiency and on-time performance of the station's operations by adding a third track, which allows for an additional train to move through the station when two trains are boarding passengers. The project is an important component of a larger effort to add additional transit and freight capacity to the Los Angeles-San Diego-San Luis Obispo (LOSSAN) coastal rail system.

Other project improvements include constructing a new boarding platform to the south, extending an existing platform to the north to accommodate a ten-car train, adding new crossovers and turnouts to enhance rail operations, and modernizing the station's amenities with new shelters, directional lighting, seating, and electronic signs displaying real-time arrivals and departures. Construction is expected to be complete late 2017.
