

CONSTRUCTION ADVISORY

Trolley Station Construction & Detours

Construction at Blue Line Trolley Track Crossing

August 2014

Construction work, including track and asphalt replacement, will occur this month at the trolley track crossing located at the intersection of **Merlin Drive and Imperial Avenue**. Noise and dust is anticipated during construction and crews will minimize impacts as much as possible. This work is scheduled to begin at 9 p.m. on Friday, August 22 through 6 a.m. on Monday, August 25. Additional construction work on the sidewalks will be ongoing through Friday, August 29.

This construction will involve the use of heavy equipment that will generate intermittent noise and traffic impacts. Traffic control measures will be in place at the trolley crossing.

Local businesses and pedestrian walkways near the crossing will remain accessible. The schedule may change with very little notice. We appreciate your patience as we work to improve the Trolley system.

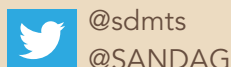

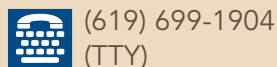

Please use **extra caution** during construction and follow the direction of the on-site flagging staff when traveling near the work area.

The Trolley Renewal Project

The Trolley Renewal Project is a joint project of the San Diego Association of Governments (SANDAG) and the San Diego Metropolitan Transit System (MTS). Once complete, new low-floor Trolleys will operate throughout the system. All stations will be equipped with next-arrival signs, new shelters, and seating. The end result will be easier access, quicker trips, a more comfortable ride, and an enhanced transit experience. This work is part of a \$660 million project to renew the entire MTS Trolley network. Funding for the project was provided by TransNet, the regional half-cent sales tax for transportation administered by SANDAG; California Proposition 1A and 1B; and the American Recovery and Reinvestment Act of 2009.
