

Construction to Improve Station to Begin Next Month

Construction is scheduled to begin in June on a major expansion of the Oceanside Transit Center. Project improvements will include a new third track, a new boarding platform to the south, extension of the existing boarding platform to the north to accommodate a ten-car train, new crossovers and turnouts to enhance rail operations, and enhanced station amenities. The project will improve the efficiency and on-time performance of the station's transit operations by allowing for an additional train to move through the station when two trains are boarding passengers. Construction is expected to be complete late 2017.

Learn More at Planned Construction Info Sessions

Prior to construction, the project team will host a series of Construction Info Sessions at the station so transit riders and neighbors can learn more about the project, what to expect during construction, and sign up to receive project updates.

Saturday, May 21 - 10:30 a.m. to 2 p.m.

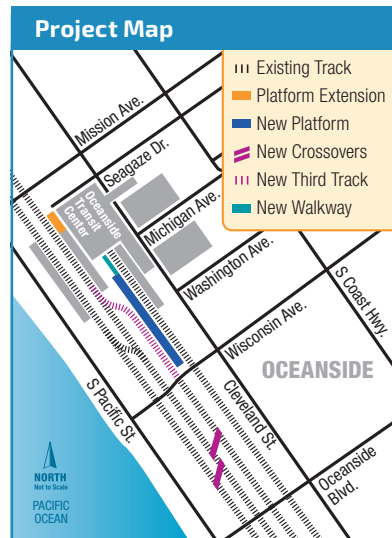

Tuesday, May 24 - 5:30 a.m. to 9 a.m.

Wednesday, May 25 - 4:30 p.m. to 7:30 p.m.

The project team will be located near the pedestrian undercrossing at the station.

We look forward to visiting with you.
