

MID-COAST TROLLEY

MID-COAST TROLLEY CONSTRUCTION UPDATE

AUGUST 2019

TRACTION POWER SUBSTATION (TPSS) INSTALLATION ON OLIVE STREET

Beginning Monday, August 5, and continuing for approximately two weeks, crews will be installing underground electrical systems to connect and activate the new traction power substation (TPSS) located on Olive Street, which will provide power for the Trolley. For the safety of the crews and the public, parking and lane restrictions will be in place while work is underway.

What to Expect

- Parking restrictions will be in place on Olive Street from 7 a.m. to 5 p.m. each day.
- A lane closure and a sidewalk closure will be in place on Olive Street and Kettner Boulevard from 9 p.m. to 5 a.m. each night.
- Signage will be placed in advance of parking restrictions, and flaggers will be present to direct traffic.
- Access to businesses and residences on Olive Street will be maintained.
- Crews will minimize impacts as much as possible.

Construction schedules may change with very little notice.

About the Project

The Mid-Coast Trolley project will extend Trolley service from Old Town Transit Center to the University community, serving major activity centers such as Mission Bay, the VA Medical Center, UC San Diego, and University Towne Centre. Nine new stations will be constructed. Major construction work began in 2016, with service anticipated to begin in late 2021.
