

MID-COAST TROLLEY

# MID-COAST TROLLEY CONSTRUCTION UPDATE

SUMMER 2020

## NIGHTTIME CONSTRUCTION ACTIVITIES ON GENESEE AVENUE

Beginning in late May 2020 and continuing for approximately two months, crews will perform exterior finish work on the Trolley bridge above Genesee Avenue, between Regents Road and Nobel Drive.

The construction activities require closures of Genesee Avenue. For the safety of crews and the community, work will take place at night. Additionally, nighttime closures are necessary to avoid conflict with MTS bus schedules and to maintain access to the UTC Transit Center.

### What to Expect

- Specific work locations and hours will vary nightly and will be posted to [KeepSanDiegoMoving.com/MidCoastNotices](http://KeepSanDiegoMoving.com/MidCoastNotices)
- Typical work hours will be Sundays through Thursdays, from 8 p.m. to 5 a.m.
- Please expect noise as this work is completed
- The construction team is aware of residents in the area and will minimize impacts as much as possible
- Please follow signage and use caution when traveling in the area

**Construction schedules are subject to change due to weather, equipment, and other issues. Check [KeepSanDiegoMoving.com/MidCoastNotices](http://KeepSanDiegoMoving.com/MidCoastNotices) for regular schedule updates.**

## Update on Construction During COVID-19 Pandemic

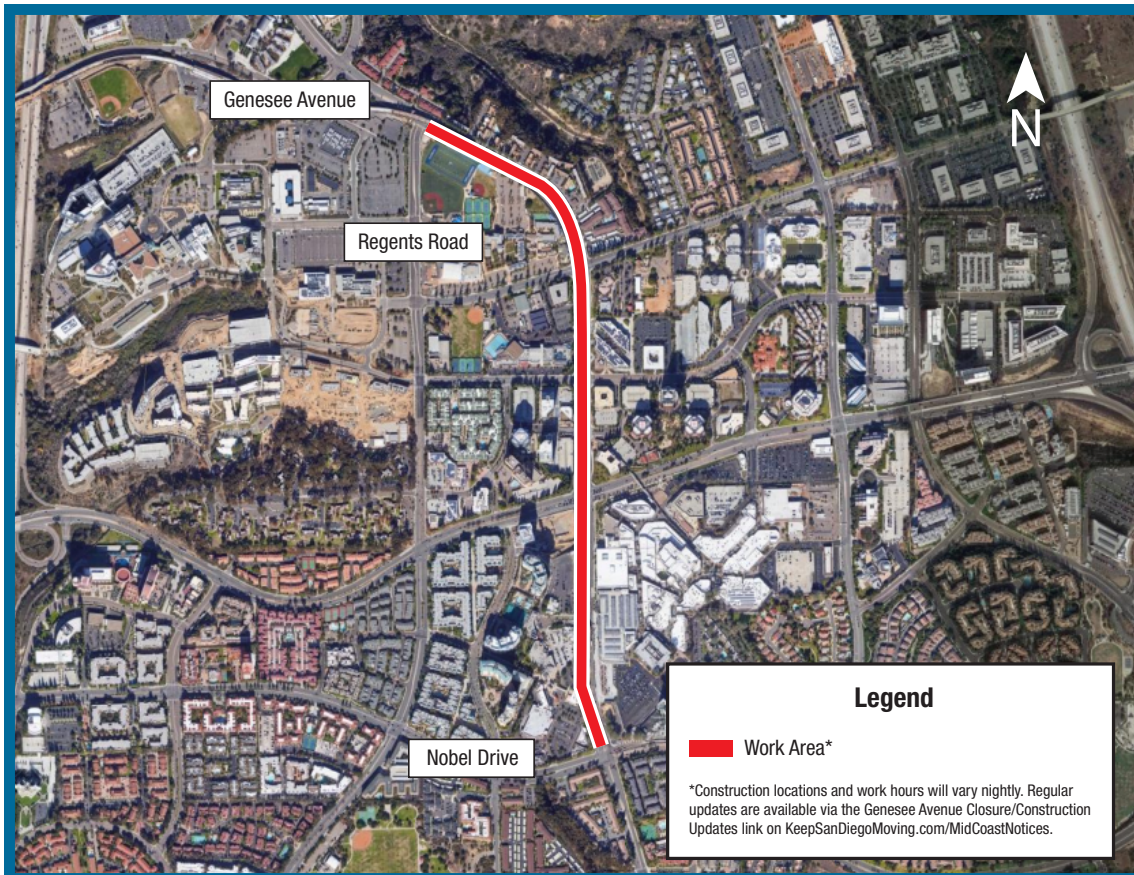

The government has deemed public works construction activities to be essential, so SANDAG is working to keep active construction projects moving while prioritizing the health and safety of its partners, contractors, and communities. For additional information, please visit [sandag.org/COVID-19](http://sandag.org/COVID-19).

## About the Project

The Mid-Coast Trolley project will extend UC San Diego Blue Line Trolley service from the Santa Fe Depot in Downtown San Diego to the University community, serving major activity centers such as Mission Bay, the VA Medical Center, UC San Diego, and University Towne Centre. Nine new stations will be constructed. Major construction work began in 2016, with service anticipated to begin in late 2021.
