

MID-COAST TROLLEY

# MID-COAST TROLLEY CONSTRUCTION UPDATE

FEBRUARY 2020

## TRACTION POWER SUBSTATION (TPSS) INSTALLATION AT TECOLOTE ROAD

On Tuesday, February 18, a traction power substation (TPSS), which will provide power for the Trolley, will be installed at Tecolote Road, near the railroad right-of-way. For the safety of the crews and the public, flaggers will be present on W. Morena Boulevard, from the northern junction of W. Morena Boulevard/Morena Boulevard to Vega Street, while the work is underway.

### What to Expect

- TPSS installation work will begin at 10 p.m. on Tuesday, February 18 and will continue to 9 a.m. on Wednesday, February 19
- A crane will be on site to set the TPSS and light plants will be in place to illuminate the work area
- This work may generate noise and back-up alarms may be heard
- Crews will minimize impacts as much as possible

**Construction schedules may change with very little notice.**

### About the Project

The Mid-Coast Trolley project will extend UC San Diego Blue Line Trolley service from the Santa Fe Depot in Downtown San Diego to the University community, serving major activity centers such as Mission Bay, the VA Medical Center, UC San Diego, and University Towne Centre. Nine new stations will be constructed. Major construction work began in 2016, with service anticipated to begin in late 2021.
