

MID-COAST TROLLEY

MID-COAST TROLLEY CONSTRUCTION UPDATE

FALL 2020

TEMPORARY CLOSURE OF VOIGT DRIVE BRIDGE

Beginning Monday, October 19, a full closure of the Voigt Drive bridge over Interstate 5 will go into effect as crews reconfigure the sidewalks. East of the bridge, Voigt Drive will reopen with limited access. Additionally, inbound access to Scripps Health facilities from Voigt Drive will be available from the east only while outbound access will remain closed.

This is ongoing work for the Voigt Drive Improvements project, which began in December 2019 and is expected to be completed in fall 2021.

What to Expect

- Beginning Monday, October 19 and continuing through April 2021, a full closure of the Voigt Drive bridge will be in effect
- Typical work hours will be Monday through Friday from 7 a.m. to 5 p.m., though occasional nighttime and weekend work may be required
- The full closure will be in effect for vehicles, pedestrians, bicyclists, and all forms of micromobility transportation
- Traffic control measures will be in place, including temporary wayfinding and detour signage, and roadway and sidewalk reconfigurations
- Campus Point Drive will be realigned to its new location; at this time, only southbound lanes will be open to traffic from Voigt Drive
- Inbound access to Scripps Health facilities will be available from the east only and outbound access will remain closed
- Only local access will be allowed between Scripps Health facilities and parking lot P701
- During construction, MTS Bus Routes 201 and 202 will not stop along Voigt Drive but will service a temporary stop on Athena Circle

About the Voigt Drive Improvements Project

A joint effort of SANDAG, Caltrans, and UC San Diego, the Voigt Drive Improvements project will realign Voigt Drive and Campus Point Drive to help accommodate existing and future traffic demand in the area. To complete the realignments, crews will widen Voigt Drive, make improvements to the Preuss School parking lot, and conduct utility improvements.

Upon completion, the project will provide direct access to and from the future Voigt Drive Trolley station, improving transit access to the medical facilities in the area.

Update on Construction During COVID-19 Pandemic

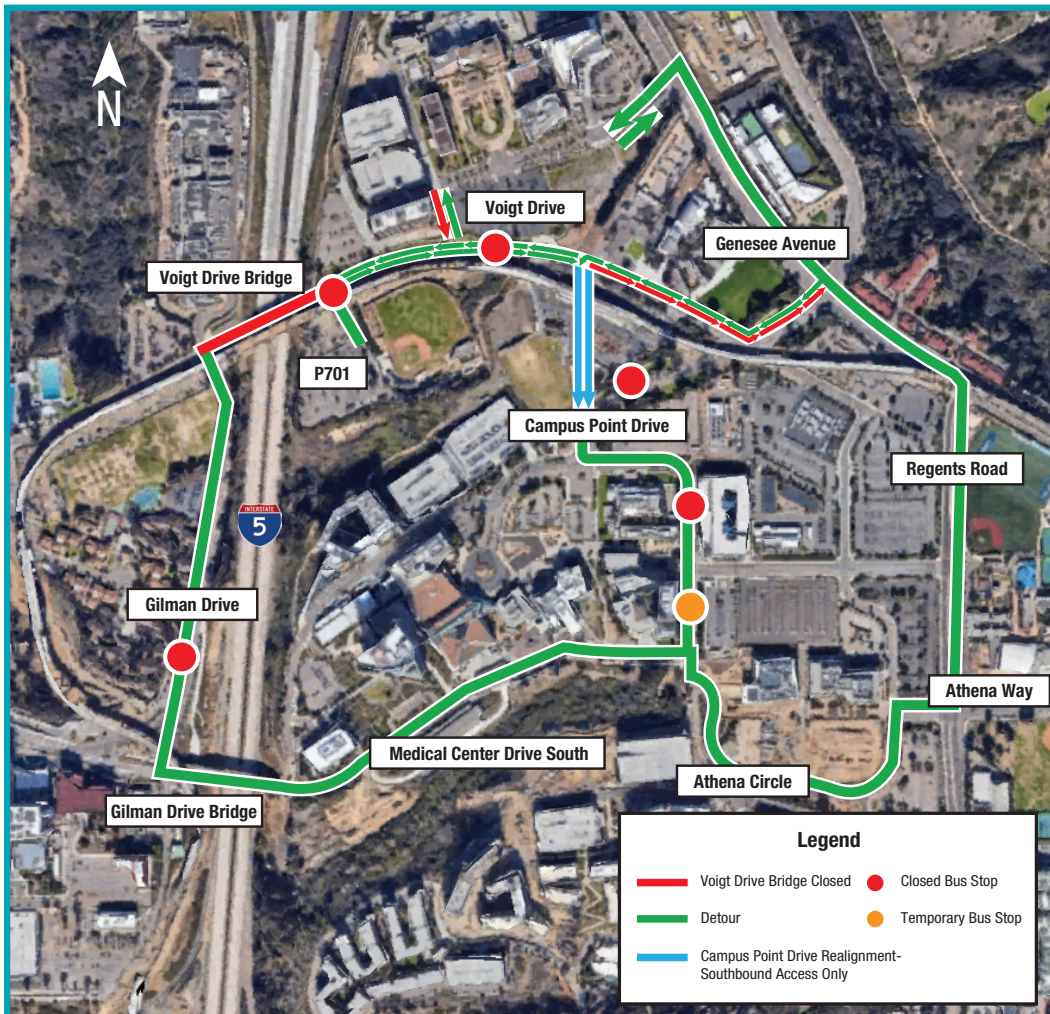

The government has deemed public works construction activities to be essential, so SANDAG is working to keep active construction projects moving while prioritizing the health and safety of its partners, contractors, and communities. For additional information, please visit sandag.org/COVID-19.

About the Mid-Coast Trolley Project

The Mid-Coast Trolley project will extend UC San Diego Blue Line Trolley service from the Santa Fe Depot in Downtown San Diego to the University community, serving major activity centers such as Mission Bay, the VA Medical Center, UC San Diego, and University Towne Centre. Nine new stations will be constructed. Major construction work began in 2016, with service anticipated to begin in late 2021.
