

MID-COAST TROLLEY

MID-COAST TROLLEY CONSTRUCTION UPDATE

SPRING 2020

TEMPORARY FULL CLOSURE OF VOIGT DRIVE

Beginning April 20, 2020 and continuing through fall 2021, a full closure of Voigt Drive will be in effect as crews continue efforts to realign Voigt Drive and Campus Point Drive. Construction activities will include road widening and utility improvements. This is ongoing work for the Voigt Drive Improvements project, which began in December 2019.

Access to and from Scripps Health facilities via Voigt Drive will be maintained through May 31, 2020. Beginning June 1, 2020, vehicles will be permitted to access the facilities via Voigt Drive but will be required to exit via Genesee Avenue. Note that access via Voigt Drive will only be available from the west, and, while permitted, exiting vehicles must turn right onto Voigt Drive. Access will be closed entirely for a limited time in the future, but the dates have not been determined. Advanced notice will be provided prior to access being closed.

What to Expect

- Beginning April 20, full closure of Voigt Drive between the Preuss School driveway and Campus Point Drive
- Beginning June 1, full closure of Voigt Drive between parking lot P701 and Campus Point Drive (access to Scripps Health will be maintained)
- Typical work hours will be Monday through Friday from 7 a.m. to 5 p.m., though occasional nighttime and weekend work may be required
- The full closure will be in effect for vehicles, pedestrians, and all forms of micromobility transportation
- Traffic control measures will be in place, including temporary traffic signals, temporary wayfinding and detour signage, and roadway and sidewalk reconfigurations
- Access will be maintained for Scripps Health facilities, UC San Diego Health facilities, The Preuss School, Triton Baseball Field, parking lot P701, and the SDG&E substation
- During construction, MTS Bus Routes 201 and 202 will not stop along Voigt Drive but will service a temporary stop on Athena Circle

About the Voigt Drive Improvements Project

A joint effort of SANDAG, Caltrans, and UC San Diego, the Voigt Drive Improvements project will realign Voigt Drive and Campus Point Drive to help accommodate existing and future traffic demand in the area. To complete the realignments, crews will widen Voigt Drive, make improvements to the Preuss School parking lot, and conduct utility improvements.

Upon completion, the project will provide direct access to and from the future Voigt Drive Trolley station, improving transit access to the medical facilities in the area.

Update on Construction During COVID-19 Pandemic

The government has deemed public works construction activities to be essential, so SANDAG is working to keep active construction projects moving while prioritizing the health and safety of its partners, contractors, and communities. For additional information, please visit sandag.org/COVID-19.

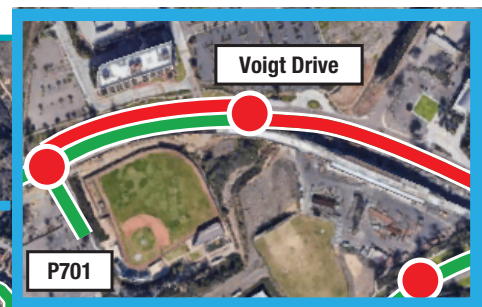

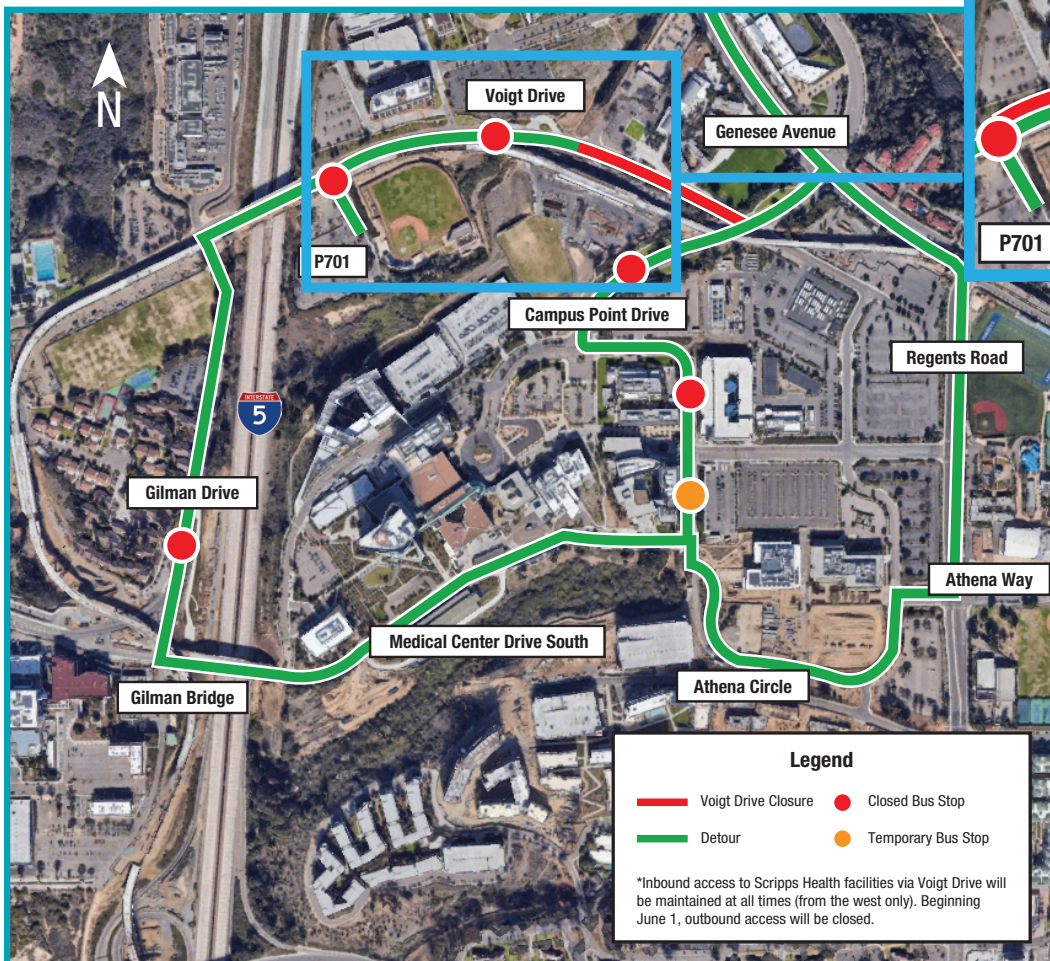

About the Mid-Coast Trolley Project

The Mid-Coast Trolley project will extend UC San Diego Blue Line Trolley service from the Santa Fe Depot in Downtown San Diego to the University community, serving major activity centers such as Mission Bay, the VA Medical Center, UC San Diego, and University Towne Centre. Nine new stations will be constructed. Major construction work began in 2016, with service anticipated to begin in late 2021.
