Construction Advisory

Reduced Lanes Overnight on Genesee Avenue Through March

Closure

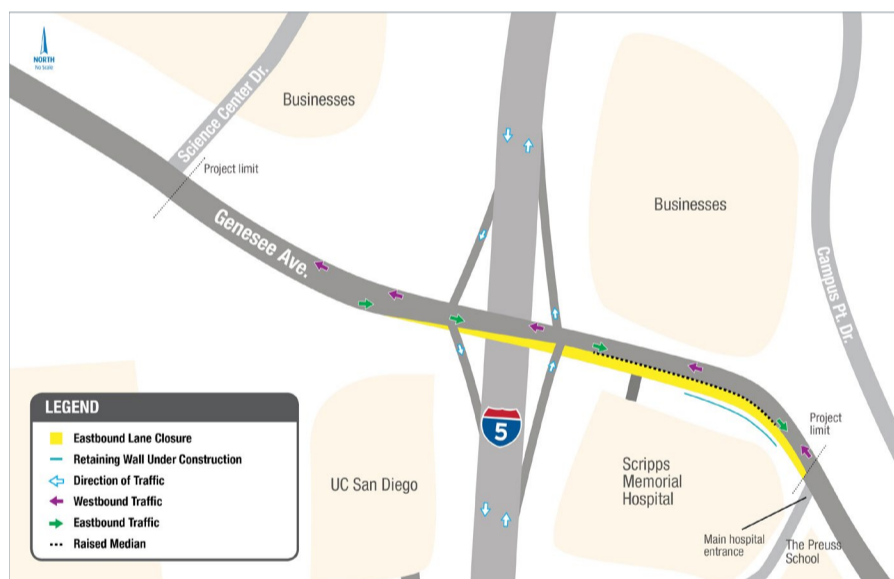

Beginning Monday, January 18 and continuing through March, motorists can expect reduced lanes overnight on Genesee Avenue between Interstate 5 (I-5) and the main entrance to Scripps Memorial Hospital.

Crews will close lanes on eastbound Genesee Avenue to work on a retaining wall east of the freeway. During the closure, two-way traffic will shift to the westbound side of Genesee Avenue. See the graphic for details. Monday-Thursday night closures will occur between 9 p.m. and 5 a.m. On Fridays, closures will occur between 9 p.m. and 8 a.m.

Access for emergency vehicles will be maintained. We appreciate your patience as we work to improve the interchange.

Detour

Eastbound lanes will begin to narrow just west of the interchange. Two-way traffic will be maintained on the westbound side of Genesee Avenue during the closure. Flaggers will be on-site to assist motorists and bicyclists. Minimal delays are expected due to low nighttime traffic volumes.

Additional Closures

Throughout January and February, ongoing construction requires intermittent, overnight lane closures on I-5, Genesee Avenue, and the on- and off-ramps at the interchange. View a detailed list of weekly planned closures and associated detours [here](#) or visit KeepSanDiegoMoving.com/Genesee.

Please note construction schedules are subject to change.

About the Project

The \$105 million project will replace the existing six-lane Genesee Avenue overcrossing with a ten-lane structure that will include additional vehicle lanes, new bicycle lanes and sidewalks, and better accommodate current and future traffic demands in the San Diego region. Check out the [project webcam](#).

The I-5/Genesee Avenue Interchange Project is expected to be completed in 2017.
