

January 2020

Northbound and southbound shift to occur in early February

Caltrans and SANDAG Build NCC highway construction crews will begin work to rebuild the inside of the highway bridge over the San Elijo Lagoon in the City of Encinitas. As part of this work, construction crews will shift northbound and southbound Interstate 5 (I-5) traffic to the new outside highway bridges. The southbound side is scheduled to shift during the **week of February 2**, and the northbound side is scheduled for the **week of February 9**. Please note, construction schedules are subject to change.

The same number of lanes will remain in each direction during and after these traffic shifts, however, motorists will experience a curve in both directions over the San Elijo Lagoon highway bridge. The traffic shifts will be completed at night to allow crews to re-stripe and re-set concrete barriers (k-rail). Overnight lane closures will be required, but no full freeway closures are planned. California Highway Patrol will provide short traffic breaks to lead motorists into the newly shifted lanes.

As always, use caution and *Drive 55 on the 5* in the Build NCC construction zone. Enhanced "Motorist Aid" can be accessed by dialing 5-1-1 anywhere in San Diego County. For more information, please visit KeepSanDiegoMoving.com/BuildNCC, email BuildNCC@KeepSanDiegoMoving.com, or call 844-NCC-0050.

For additional details and to sign up for project updates please visit KeepSanDiegoMoving.com/BuildNCC or text **BuildNCC** to **313131** to receive construction alerts. For questions, please call **844-NCC-0050**.

TRANSFORMING OUR REGION'S TRANSPORTATION SYSTEM

Build NCC is a collaborative effort between Caltrans, SANDAG, and the U.S. Department of Transportation. The first phase of construction began in the cities of Solana Beach, Encinitas, and Carlsbad as part of the North Coast Corridor Program. Build NCC includes extending the existing carpool lane on I-5 in each direction from Lomas Santa Fe Drive to State Route 78, double-tracking the rail line at the San Elijo Lagoon, replacing the highway and rail bridges at the San Elijo Lagoon, restoring the San Elijo Lagoon, and constructing nearly seven miles of new bike and pedestrian trails. Construction on Build NCC began in early 2017 and is expected to be completed by 2022. To learn more about Build NCC, visit: <http://keepsandiegomoving.com/BuildNCC>
