

**During months 1-18 of construction, the traveling public can expect:**

- Concrete barrier along inside median between Birmingham Drive in Encinitas and Palomar Airport Road in Carlsbad
- Same number of lanes, but reduced lane widths
- Lanes shifted towards the outside of the highway

**During months 19-36 of construction, the traveling public can expect:**

- Concrete barrier along outside shoulder between Birmingham Drive in Encinitas and Palomar Airport Road in Carlsbad
- Same number of lanes, but reduced lane widths
- Lanes shifted towards the inside of the highway
