

Rail Line Pedestrian Underpass

Caltrans and SANDAG Build NCC completed the addition of a pedestrian undercrossing at the southern end of the San Elijo Lagoon, under the LOSSAN rail track to improve beach access. This project is part of the effort to double-track 1.5 miles of rail line and will allow pedestrians to safely cross under the LOSSAN rail line. Other elements of the project include signal and grade crossing modifications at Chesterfield Drive in Cardiff and track signal improvements.
