

SR 76 East Segment Project Construction Advisory #46

New Lane Opens October 13

On late Thursday night, October 13, construction crews will open a new westbound lane to traffic on State Route 76 (SR 76) between South Mission Road and Flowerwood Lane.

After the traffic switch is completed, motorists will have access to two westbound lanes and one eastbound lane in this stretch of SR 76.

The final phase of the SR 76 East Segment continues to be under construction between Flowerwood Lane and Old Highway 395.

The opening of the new westbound lane is subject to change due to weather conditions.
