## Notice of Preparation – Programmatic Environmental Impact Report for the 2050 Regional Transportation Plan

The San Diego Association of Governments (SANDAG) will be the Lead Agency and will prepare a Programmatic Environmental Impact Report (EIR) in accordance with the California Environmental Quality Act (CEQA) for the 2050 Regional Transportation Plan (RTP).

SANDAG needs to know your views or the views of your agency as to the scope and content of the environmental information that will be addressed in the EIR. Due to the time limits mandated by state law, your response must be sent at the earliest possible date, but no later than 30 days after the date of this notice. Written and oral comments also will be taken at the public scoping meetings listed below. The RTP establishes regional transportation policy for the San Diego region and addresses all forms, or modes, of transportation. The RTP identifies the facilities and programs that will be needed to meet travel demand through the year 2050.

## AS-NEEDED ENVIRONMENTAL MONITORING

American Indians, Asian-Americans, Filipinos, and Latinos, and local firms are strongly encouraged. Prime consultants are encouraged to subconsult or joint venture with these firms. The City endeavors to do business with firms sharing the City's commitment to equal opportunity and will not do business with any firm that discriminates on the basis of race, religion, color, ancestry, age, gender, sexual orientation, disability, medical condition or place of birth. This project has a voluntary Subcontracting Participation Level (SPL) goal of 15%. SPL goals are achieved by contracting with any combination of Minority Business Enterprises (MBE), Women Business Enterprises (WBE), Disadvantaged Business Enterprises (DBE), Disabled Veteran Business Enterprises (DVBE) or Other Business Enterprises (OBE) at the prime or subcontractor level. Definitions of MBE, WBE, DBE, DVBE and OBE are contained in the Request for Proposals (RFP). Attainment of the SPL goal is strongly encouraged, but strictly voluntary.

The City of San Diego will ensure that full access to programs, services, meetings and activities comply with Section 504, Title V, of the Rehabilitation Act and Americans with Disabilities Act (ADA) 1990, Public Law 101-336.

In-depth knowledge and a strong understanding of the local environment, and a local presence for interfacing with the City's project management staff are essential to the successful completion of this project. The proposal must address the consultant's knowledge and understanding of: the City and other local agencies responsible for

contract or to identify any costs incurred in the preparation of a proposal pursuant to this RFP. The City reserves the right to accept or reject any or

to address questions regarding the Municipal Separate Storm Sewer System (MS4) Permit conditions, Total Maximum Daily Loads (TMDLs), Area of Special Biological Significance (ASBS), Clean-up & Abatement Orders (CAOs), and other regulatory actions that impact the City's storm drain system. Tasks range from preparing plans, conducting monitoring, analyzing data, performing modeling, attending meetings, preparing reports, preparing recommendations, and providing presentations. These projects will address a variety of pollutants of concern, such as metals, pesticides, bacteria, PCBs, organics, and others as needed. Matrices that can be included in a project are water, sediment, air, toxicity, bioassessment, and benthic community assessments. The evaluation of these matrices are used to identify sources of pollution, evaluate the trends, determine strategies, and propose solutions to improve water quality in a scientifically-based, cost effective manner. Information from these projects will be used to present the City's position in regards to the development of regulatory policies, Basin Plan amendments, and other regulatory documents. The remainder of the Scope of Services is contained in the Request for Proposal for As-Needed Environmental Monitoring Professional Services (H105099), as Exhibit A to the Draft Agreement.

## Notice of

agency as to the scope and content of the environmental information that will be addressed in the EIR. Due to the time limits mandated by state law, your response must be sent at the earliest possible date, but no later than 30 days after the date of this notice. Written and oral comments will also be taken at the public scoping meeting listed below. The planned South Bay BRT project is a 21-mile, rapid reliable, high-frequency transit service between the Otay Mesa Port of Entry and downtown San Diego via eastern Chula Vista. The proposed BRT project is projected to be in service in 2014. SANDAG will be soliciting input on alternatives to the proposed routing at a public scoping meeting scheduled at the following time and location:

When:  
Wednesday, April 28  
from 4:00 p.m. to 8:00 p.m.

Where: Heritage  
Elementary School  
1450 Santa Lucia Road,  
Chula Vista, CA 91910

Please send your response to Rob Rundle, SANDAG, 401 B Street, Suite 800, San Diego, CA 92101 or via email at [rru@sandag.org](mailto:rru@sandag.org). Please include the name of a contact person.

The Notice of Preparation may be reviewed or obtained at SANDAG, 401 B Street, Suite 800, San Diego, CA 92101. A full copy of the Notice of Preparation for the South Bay Bus Rapid Transit EIR can also be found on the SANDAG website at [www.sandag.org/SBBRTEIR](http://www.sandag.org/SBBRTEIR).
