

- ① Reduce curve radius and potentially signalize right turn to allow people walking and riding bikes a protected crossing
- ② Expand refuge island to accommodate people walking and riding bikes as they wait to cross
- ③ Expand sidewalk to 12' pathway and add additional space at corner for people walking and riding bikes as they wait to cross
- ④ Widen crossing and add bicycle crossing treatment
- ⑤ Add through bike lane next to refuge island. Provide guidance for people riding bikes to connect to Coastal Rail Trail
- ⑥ Add buffer to bike lane by narrowing travel/turn lanes

Provide wayfinding at decisions points to help people navigate to/from Coastal Rail Trail
