San Dieguito Double Track and Special Events Platform

PROJECT SCOPING MEETING

Please join the San Diego Association of Governments (SANDAG) at a public scoping meeting to discuss the environmental review process for the San Dieguito Double Track and Special Events Platform Project.

The San Dieguito Double Track and Special Events Platform Project will add approximately one mile of second track from Solana Beach to Jimmy Durante Boulevard, replace the aging San Dieguito River wooden trestle bridge and add a special events rail platform at the Fairgrounds for major events.

The rail improvement project will improve a critical part of the 351-mile Los Angeles-San Diego-San Luis Obispo (LOSSAN) rail corridor that serves as a vital link for passenger and freight movements in San Diego County. The project is also one part of a package of rail and transit improvements planned for the North Coast Corridor, which spans 27 miles and includes the six coastal cities of Oceanside, Carlsbad, Solana Beach, Encinitas, Del Mar, and San Diego.

The project will begin its early planning and environmental scoping process in January 2013. The meeting will offer members of the public the opportunity to provide input on what should be studied under the National Environmental Policy Act (NEPA).

Additional public information meetings are planned throughout 2013. Please visit KeepSanDiegoMoving.com for more information about the process.

Tuesday, January 22, 2013

6:00 p.m. – 8:00 p.m.

Del Mar Hills Academy

14085 Mango Drive, Del Mar, CA 92014
